

Contents

Definitions and Abbreviations.....	VI
1 Purpose	1
2 Scope.....	2
3 Intent and Overview of Proof Testing.....	3
3.1 Overall Structure of Proof Testing.....	4
3.2 Hierarchy of Testing Methods – Sensors.....	4
3.3 Hierarchy of Testing Final Elements.....	5
4 Detailed Requirements.....	6
4.1 Testing of Pressure Sensors.....	6
4.2 Testing of Flow Sensors	7
4.3 Testing of Level Sensors.....	7
4.4 Testing of Temperature Sensors	8
4.5 Testing of Other Sensors	8
4.6 Other Methods of Establishing Sensors are Functioning	8
4.7 Testing of PES Logic Solvers	9
4.8 Testing of Relay Logic Solvers	9
4.9 Testing of Valves.....	9
4.10 Testing of Motors.....	11
4.11 Testing of Energise-to-Trip Systems.....	12
4.12 Testing of Supporting Systems.....	12
4.13 Testing of Diagnostic Systems.....	12
4.14 Management of Defeats during Testing.....	13
4.15 Management of Isolation Valves during Testing	13
5 Inspection/Maintenance.....	14
6 Proof Testing Procedures	15
6.1 Avoiding Human Error.....	15
6.2 Style of Writing.....	15
6.3 Proof Test Records.....	16
References	17
Bibliography.....	17
