

EEMUA® 159 Training Scheme

TankInspector - Entry Criteria

Industrial Route:

- Minimum of 3 years' experience in inspection and maintenance of storage tanks (capacity $\geq 150 \text{ m}^3$).
- Must hold a relevant qualification or job role, such as Project Engineer, Project Coordinator, Operations Supervisor, or similar.

Academic Route:

- Qualified Visual Inspector according to relevant EN, ISO, or ASTM/ASME standards, **or** a qualified NDT Level 2 Inspector, with at least 1 year of consistent experience in inspection and maintenance of storage tanks (capacity $\geq 150 \text{ m}^3$).

Alternative Entry:

- Engineers, operational supervisors, or inspectors who do not meet the above criteria but have successfully completed the EEMUA 159 TankBasics training course. EEMUA 159 TankBasics certificate number must be provided at registration.
